Why Roam Better with Bell

The most number of LTE roaming destinations

Bell customers subscribed to Roam Better get access to LTE in over 60 destinations – more than double the destinations than the next leading provider

More data with Bell!

With Roam Better, customers have access to unlimited calling and texting, plus an additional 100MB of dedicated roaming data to be used each day.

Peace of mind

Customers can travel and use their phone with unlimited calling, texting and 100MB of data for only \$5 a day in the U.S. and \$10 a day in over 100 international destinations.

One-time opt-in

Customers can simply text "Roam" to 7626 (ROAM) and Roam Better will be added to their account. Customers only need to subscribe once, and will only be charged when they use their phone while roaming in a Roam Better destination.

Convenient top-up

Customers that use the 100MB of roaming data prior to 11:59 pm Eastern Time will receive an SMS notification with a link to add another 100MB of roaming data. Customers can continue to use their unlimited calling and texting without topping up data.

Customers not on an unlimited share plan or travelling to a destination not included in Roam Better can utilize our new travel passes to fulfill their roaming needs.
