**15**  
 DEVICES  
 ON ONE GREAT  
 SERVICE

Current as of **May 3, 2011**. Available with compatible devices within network coverage areas available from Quadro and its partners' coverage areas where technology permits. Extended Coverage in certain parts of Manitoba and Saskatchewan is provided by a roaming partner and may be either HSPA or GSM where available, and is compatible with a Quadro HSPA device with post-paid service but certain services may not be operable. Extended coverage not available to residents of Manitoba and Saskatchewan. Roaming charges (including foreign taxes) may apply outside your local area. Upon early termination, price adjustments apply; see your Service Agreement for details. Subject to change without notice; not combinable with other offers. Taxes extra. Other conditions apply. (1) With compatible devices. Based on comparison of national networks: (a) fastest network, according to tests of average upload and download speeds in large urban centres across Canada, (b) largest network, based on total square kms of coverage, and (c) fewest call failures based on tests including network access failures, blocked calls and dropped calls in large urban centres across Canada; all on the shared HSPA + (4G) network available from Quadro, vs. Rogers HSPA /HSPA + network. Excludes roaming partners' HSPA and GSM/Edge coverage in certain parts of Manitoba and Saskatchewan. Speed may vary due to topography, environmental conditions, device type and other factors. HSPA + (4G) not available in all areas. Ask Quadro for details. (2) 42 Mbps is a theoretical peak speed. Expected average download speed of 7-14 Mbps. Speeds may vary due to topography, environmental conditions, device type and other factors. With compatible computer operating systems. Device may require a software upgrade to attain higher speeds. (3) 7.2 is a theoretical peak speed. Expected average download speed of 2-4 Mbps. Speeds may vary due to topography, environmental conditions, device type and other factors. (4) Maximum 4 additional devices with a minimum 1GB Smartphone plan. (5) Subject to acceptable use restrictions in Terms of Service, including consuming excessive network capacity or causing our network to be adversely affected. (6) 21 Mbps is a theoretical peak speed. Expected average download speed of 3.5-8 Mbps. Speeds may vary due to topography, environmental conditions, device type and other factors. (7) External antenna may be required (sold separately). **ALL PRICES, PRODUCT and PACKAGES ARE SUBJECT TO CHANGE WITHOUT NOTICE. SECURITY DEPOSIT MAY BE REQUIRED AT TIME OF ACTIVATION. SEE IN STORE FOR DETAILS.**
