COMPUTER REPAIR AND I.T. SOLUTIONS

NEED TO SPEED UP A SLUGGISH IPHONE?

Devices tend to slow down over time, especially as storage and memory fill up with files and unused apps. Here are some simple best practices to help maintain your device.

From time to time you should **power off your device** completely. This clears out the memory.

Get into the habit of **deleting apps** and files you don't use (photos are a common storage issue) and archive the latter in the cloud and/or local backup.

Check your settings for apps that refresh in the background and adjust them accordingly.

Update your iOS on your device, iOS 12 particularly focused on improving performance.

If you think your mobile device has been infected with malicious software, call your manufacturer or **Quadro's**

Computer Repair and I.T. Solutions team 519.229.8020.

INTERESTED IN BECOMING A BOARD MEMBER?

REMINDER
EFFECTIVE
DECEMBER 31ST

Quadro Channel 552
Will no longer be available

MEET OUR TEAM - Kasey Beer

Kasey has been an asset to our Customer Service Team since 2014. With her background in Business and Massage Therapy, Kasey has been able to grow with us over the years and works hard to assist customers with their mobility solutions and home communication needs.

If you have a chance to meet Kasey, you will remember her most by her quiet confidence and unassuming nature.

When not at the office, Kasey has her hands full trying to keep up with her 15 month old son, coupled with undergoing a complete home renovation. We are very proud to have Kasey serve our members and as a colleague on the Quadro team!
