# Connect to Wi-Fi on your iPhone, iPad, or iPod touch

Learn how to connect your device to a Wi-Fi network, including open, secure, public networks, and networks that you've connected with in the past.

Connect to a Wi-Fi network

1. From your Home screen, go to Settings > Wi-Fi.

2. Turn on Wi-Fi. Your device will automatically search for available Wi-Fi networks.

3. Tap the name of the Wi-Fi network that you want to join. Before you can join the network, you might be asked to enter the network's password or agree to terms and conditions.

After you join the network, you'll see a blue checkmark ✓ next to the network and the connected Wi-Fi icon 🛜 in the upper corner of your display. If you don't know the password to the Wi-Fi network, contact your network administrator.
